Design

WOVEN INTO OUR DNA.

.....

Driven by passion, Ceragres brings your ideas to life in inspiring ways. An importer and distributor of ceramic tiles, natural stones, high-end bathware and high-performance technical products, Ceragres has been an indispensable reference in the field of design and architecture for the last thirty years.

The Ceragres universe is over 200 employees who are passionate about design, a sales team dedicated to architects and designers, expert advisors located in eight boutique workspaces and over one hundred stores distributing our products throughout Quebec, Ontario and the Atlantic Provinces. From searching for products to carrying out projects, Ceragres provides exceptional assistance and consulting services from product experts.

creativity

—
Design is an art that comes to life
in an atmosphere that fosters creativity.

Inspiration

STANDING OUT FOR OUR
BOLDNESS AND PASSION.

.....

Facilitating the creation process. Inspiring. Surprising. We understand that each design is unique. That's why our team travels the globe in search of daring products that foster creativity and meet the requirements of designers and architects.

Whether it's a commercial, residential or institutional project, Ceragres leaves its mark on the Canadian architectural landscape. Many major projects – metro stations, condo towers, cultural spaces and shopping malls – reflect the Ceragres vision.

Ceramic Porcelain Natural Stone

DRAWING INSPIRATION.
CREATING.
INNOVATING.

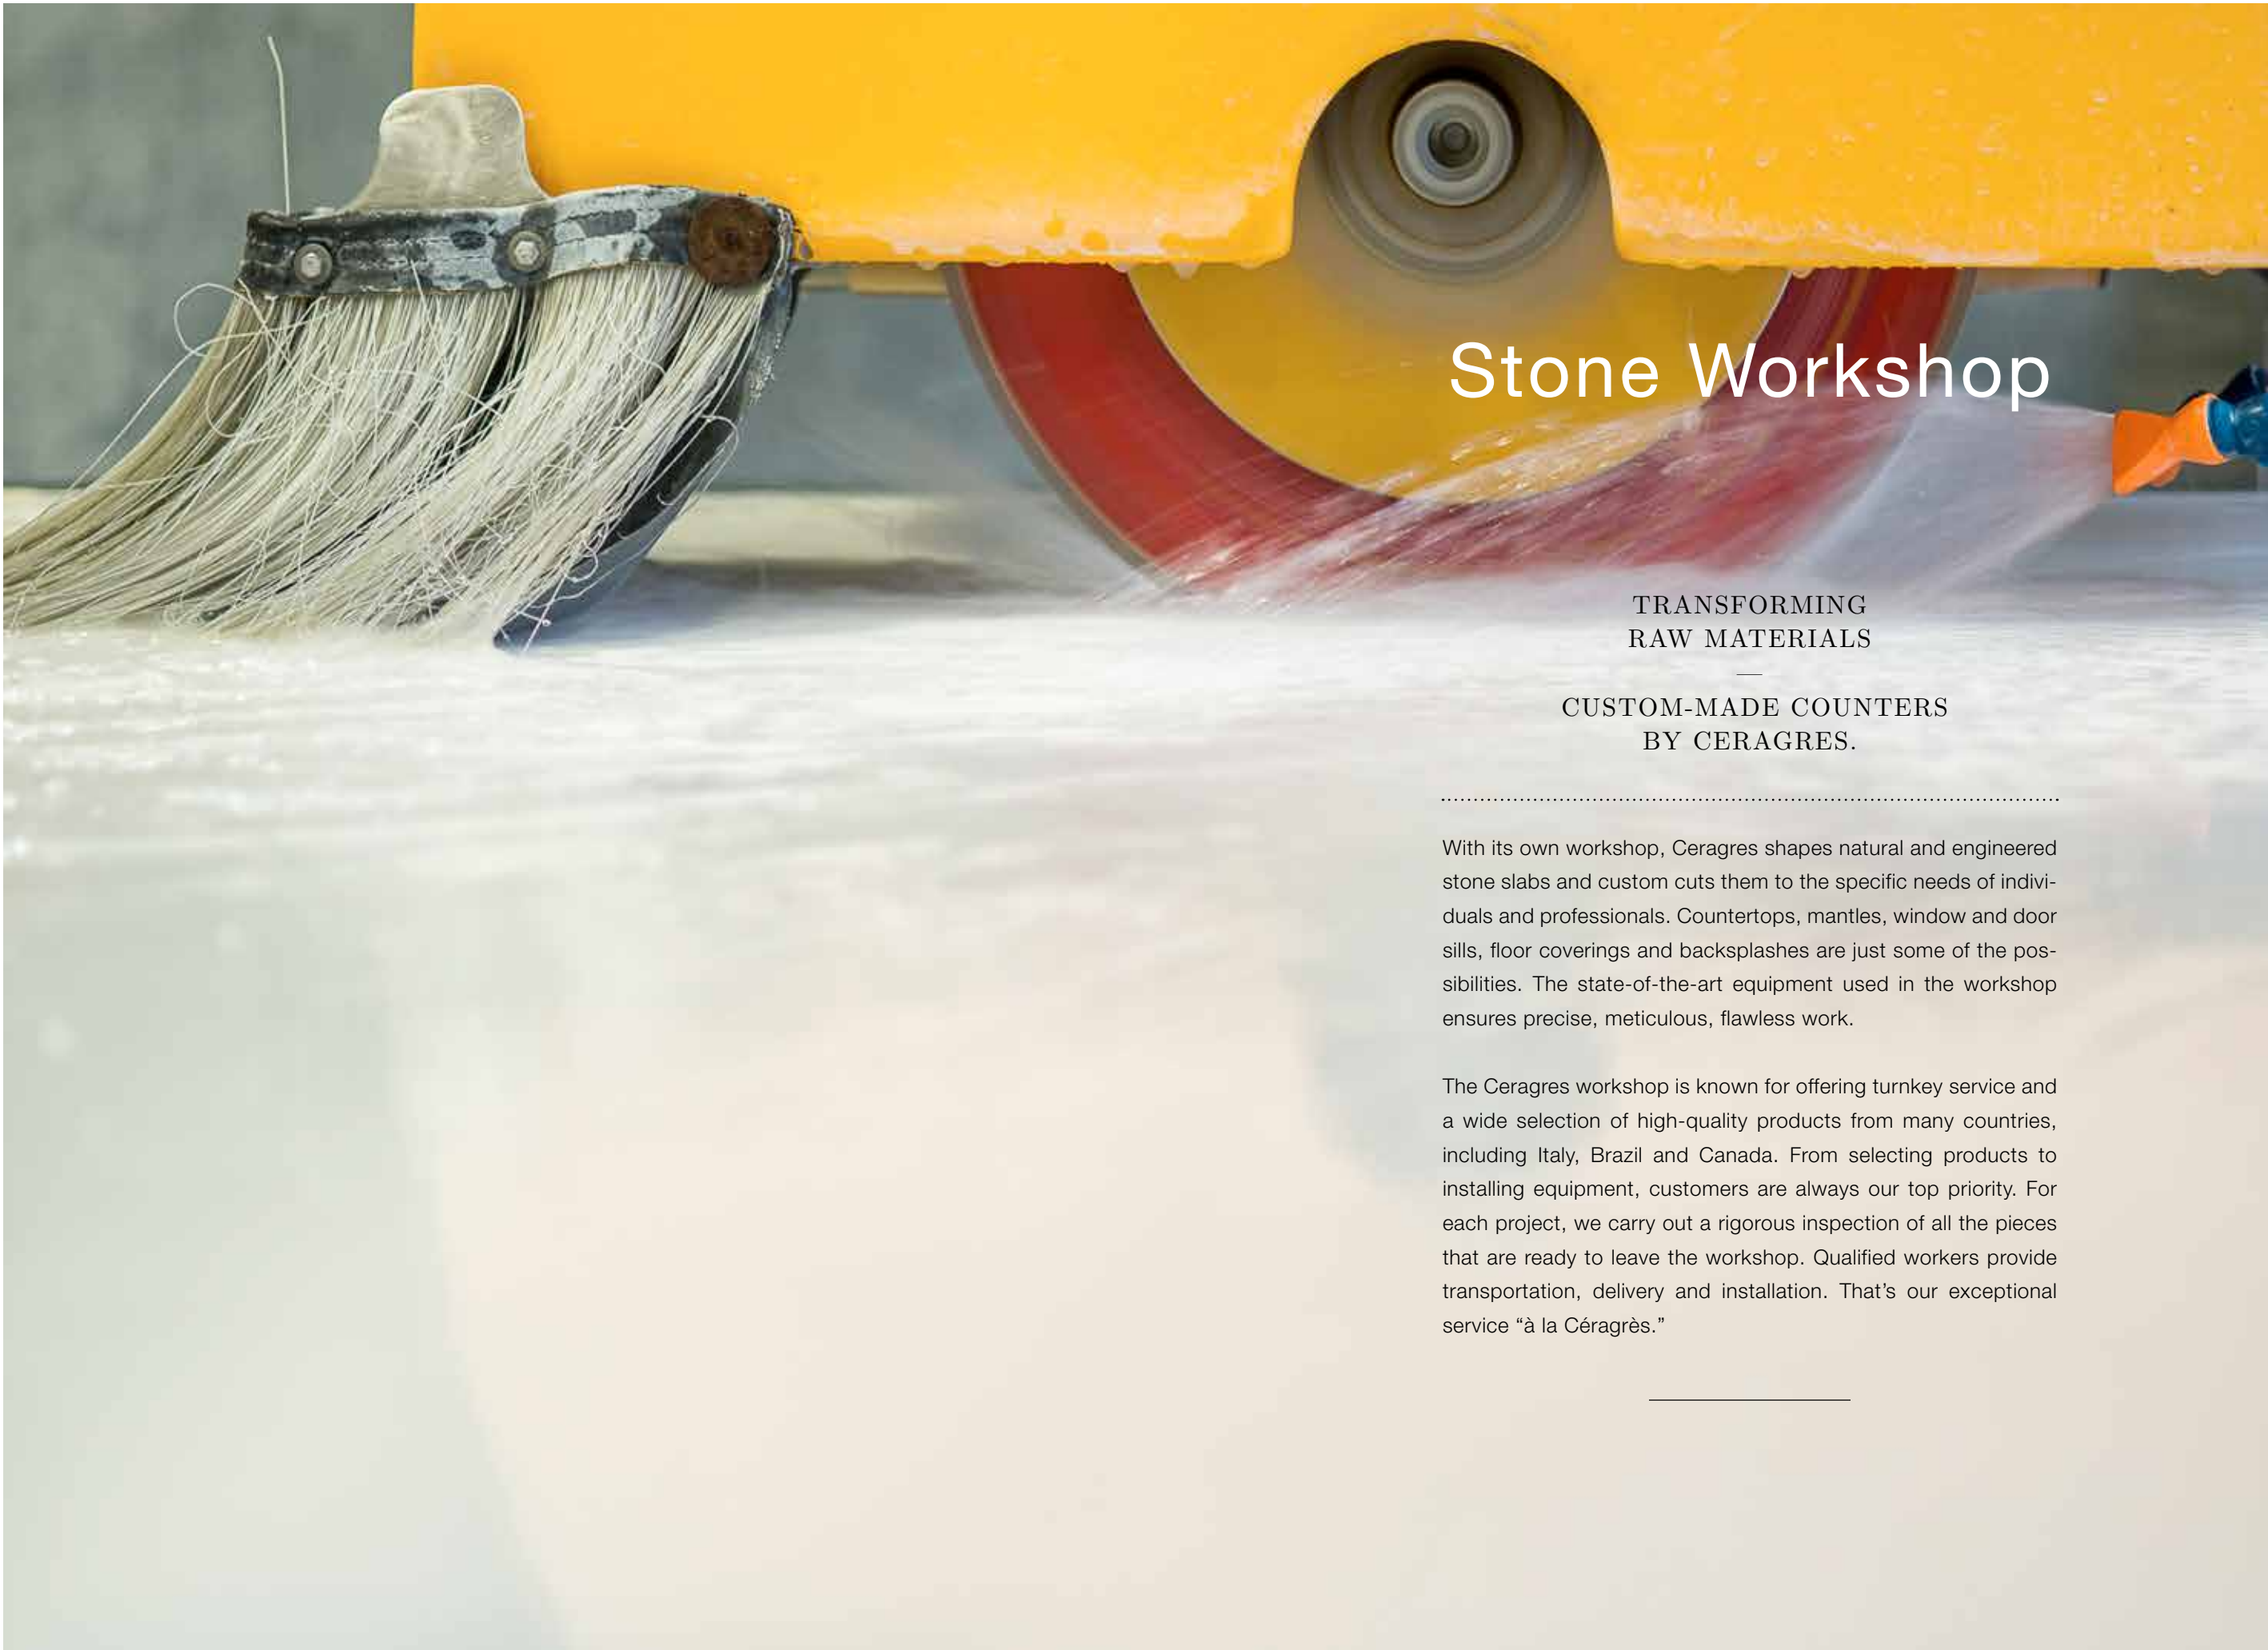

.....
The tiles are at the heart of Ceragres. Carefully selected based on both current trends and a timeless perspective, they are perfectly suited to create the ideal balance between aesthetics and high performance.

Constantly looking for bold, avant-garde products, our product development team works in close collaboration with renowned suppliers to create exclusive products adapted to the needs of the market. With over 125 unique collections available in many formats, textures and colours, the combinations and applications are endless.

Our tiles reside inside and outside small and large homes and businesses. They create a harmonious, simple, long-lasting world.

Each project tells a story. Our products help you to tell it.

Stone Workshop

TRANSFORMING
RAW MATERIALS

—
CUSTOM-MADE COUNTERTOPS
BY CERAGRES.

.....

With its own workshop, Ceragres shapes natural and engineered stone slabs and custom cuts them to the specific needs of individuals and professionals. Countertops, mantles, window and door sills, floor coverings and backsplashes are just some of the possibilities. The state-of-the-art equipment used in the workshop ensures precise, meticulous, flawless work.

The Ceragres workshop is known for offering turnkey service and a wide selection of high-quality products from many countries, including Italy, Brazil and Canada. From selecting products to installing equipment, customers are always our top priority. For each project, we carry out a rigorous inspection of all the pieces that are ready to leave the workshop. Qualified workers provide transportation, delivery and installation. That's our exceptional service "à la Céragrès."

Fine Plumbing

COMBINING EXPERTISE
WITH OUR PASSION FOR DESIGN.

.....

At Céragrès-Les-Bains, consumers and professionals have access to a wide range of high-end bathware products to carry out their various design and renovation projects. Endless combinations of high-quality products adapted to any kind of space allow you to bring both small and big ideas to life.

Our consultants' extensive expertise in high-end bathware ensures a selection of products suited for each project. Design and authenticity are at the heart of the consulting service. The strengths of Céragrès-Les-Bains are turnkey assistance, sound advice on technical specifications and service that continues well after purchase.

Inspiring ideas, knowledgeable advice and custom solutions.

Ceramic Ventilated Facade Systems

AN EXTERIOR CLADDING THAT HELPS BUILD A GREENER FUTURE.

.....

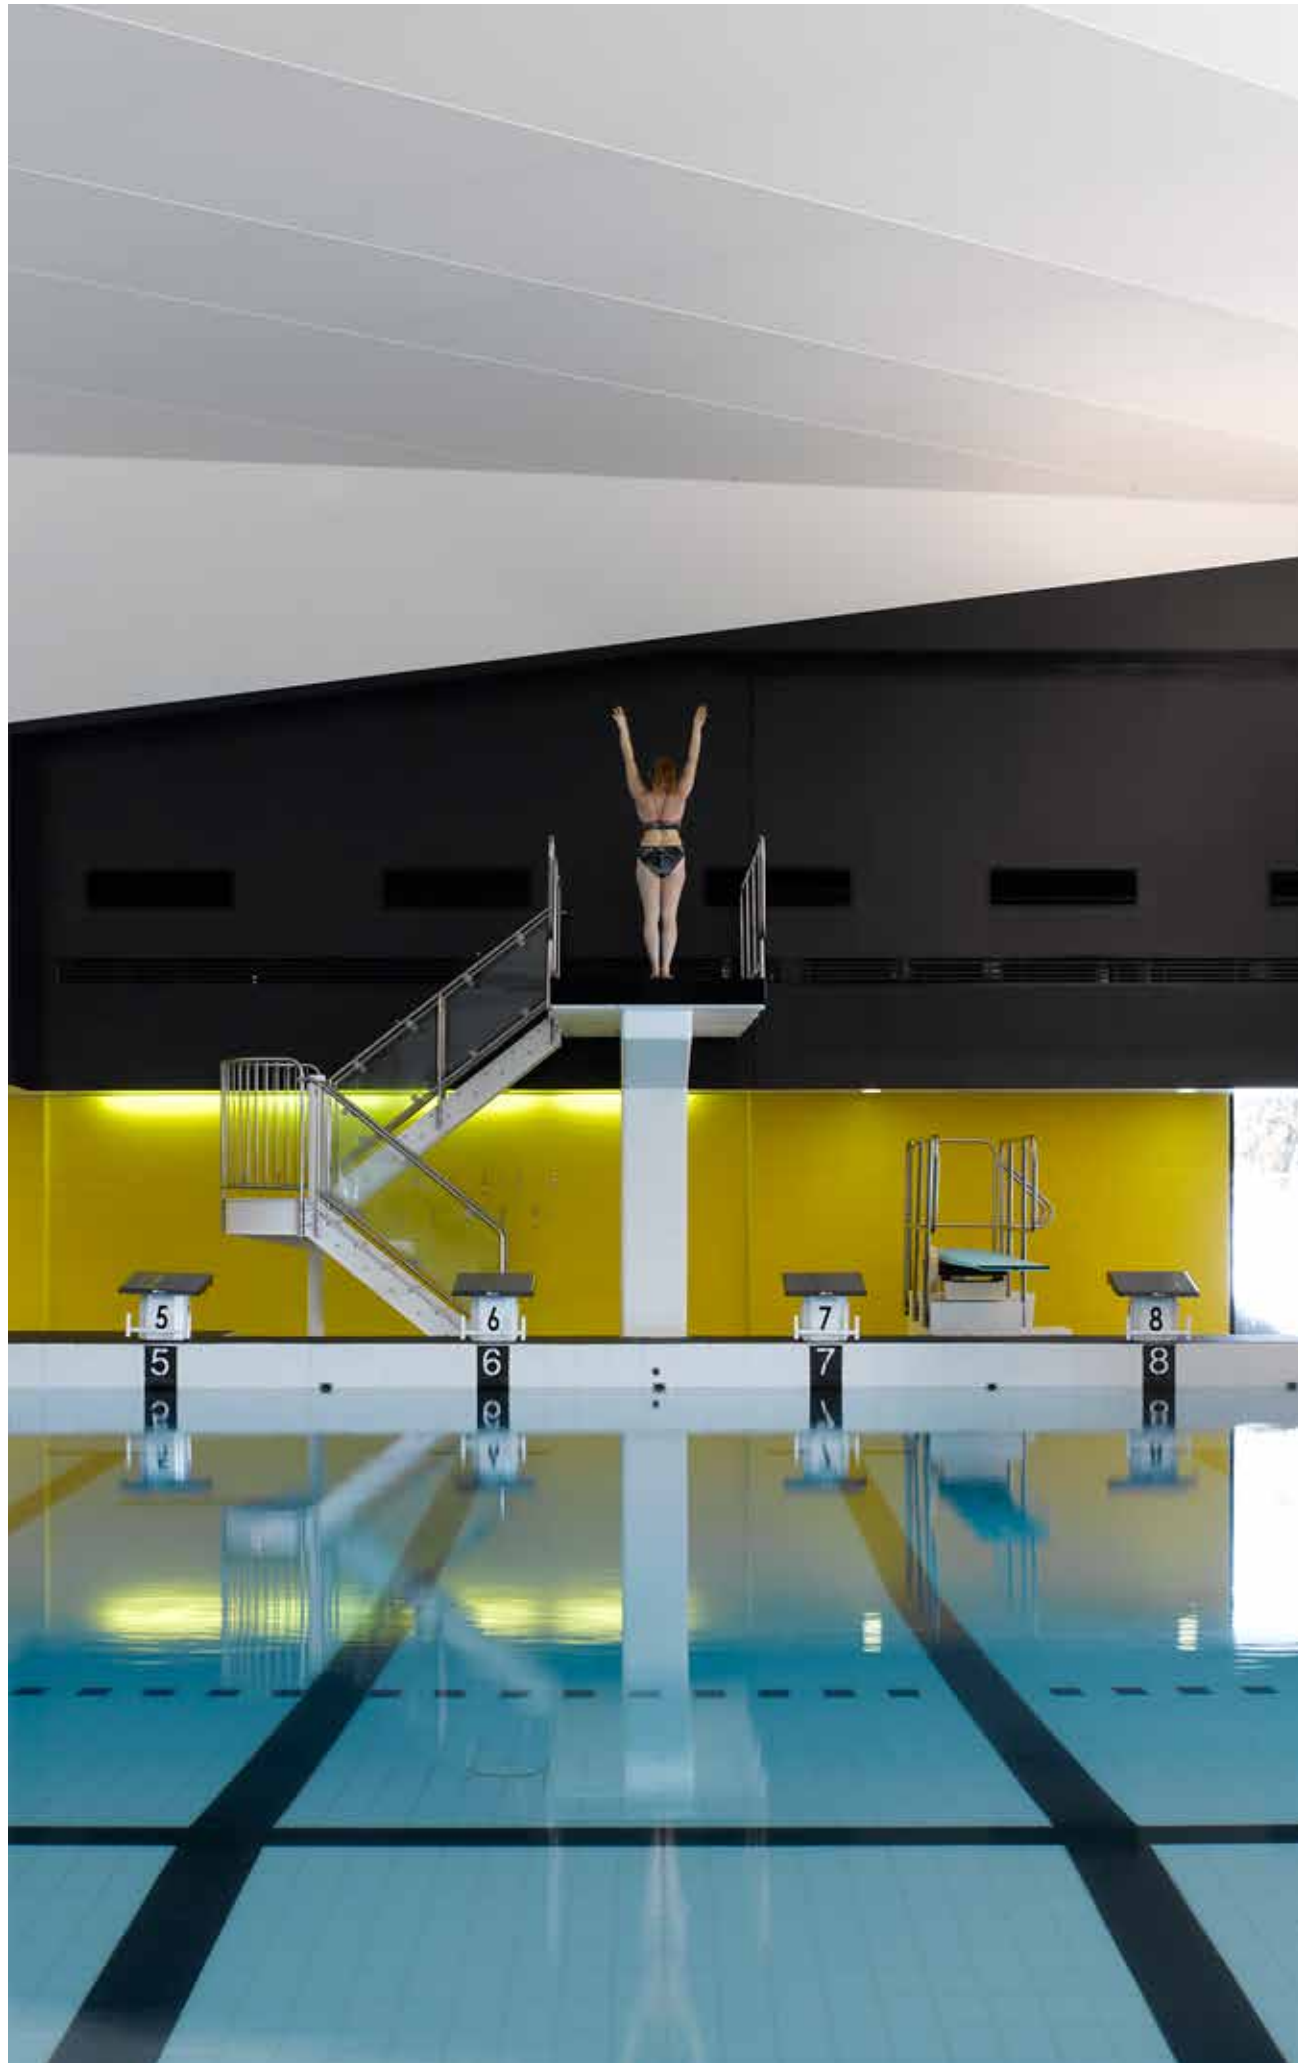

The facade is much more than a building's exterior. Its design gives buildings a signature and influences the urban environment. Ceramic ventilated cladding is a solution suited to northern climates because of the product's intrinsic qualities (durability and ease of maintenance).

With its attractive design, the innovative KeraTwin® K20 fastening system makes, our German supplier, Agrob Buchtal, a world leader in contemporary architecture.

The variety of colours, formats and finishes offers architects great freedom in planning and design. The versatility of the fastening system provides suitable solutions for all types of applications and their design challenges.

Ceramic ventilated facade technology offers many advantages:

- Eco-friendly product that contributes to a cleaner future
- UV resistance and colour stability
- Heat protection and frost resistance
- Graffiti resistance
- Non-combustible
- Protection against noise

Ceramic Pool Systems

DURABILITY AND AESTHETICS
AT THE SERVICE OF PERFORMANCE.

.....

Ceragres has acquired know-how and expertise in a variety of swimming pool projects: recreational, aquatic, sport and hotel complexes, condominiums, wellness centres and spas.

With over one hundred completed projects in partnership with architectural and design professionals, Ceragres is an indispensable reference in the industry.

Carrying out swimming pool projects is a process that requires attention to many functional and aesthetic criteria. Ceragres works with porcelain tiles specifically designed for pools that meet the most stringent requirements. Technology and creativity pair up to achieve effective long-term results.

Ceragres has partnered with several expert suppliers in the pool ceramics industry to ensure that it stays up to date on product innovation and provides continuous technical assistance.

Expertise

LISTENING TO YOUR NEEDS.
EXCEEDING EXPECTATIONS.

.....
A true reference in the design and architecture industry, Ceragres offers a full range of cutting-edge products and a human approach that promotes sustainable business relationships.

The Ceragres approach includes the following:

- Meetings and preliminary studies to properly target needs
- Budgeting
- Presentation of qualifying products
- Selection of samples
- Warranty

We regularly offer continuing education in our boutique workspaces and architects' offices. We present the latest trends in design and technical developments in the field: new applications for tiles and specialized products for building facades, pools, spas and more.

Our sales team and industry professionals offer these workshops, which are focused on needs and skills development.
